

Shanghai International Plant Fiber Molding Industry Trade Fair

• Plant Fiber Molded Packaging & Products Global Sourcing Show

2023.12.13-15

SHANGHAI NEW INTERNATIONAL EXPO CENTRE

Visitor Guide

*GLOBAL
VISION*

*Innovation for
**Efficiency &
Lower Cost***

UNIQUE

LEADING

An International Trade Fair Enabling the
Whole Plant Fiber Molding Industry Chain

WWW.IPFMEXPO.COM

- 
- International and domestic source manufacturer with high qualities and low prices
 - Comprehensive collection of high quality commercial packaging, industry packaging and paper trays with high-end customization
 - Shared application for public models thus reducing costs and make small batches worry-free

Concurrent Conferences & Business Events

2023.12.13(Wed)

10:30-11:30 W5E001

FMCG Application Workshop – Culture Art-work Session

10:30-12:30 W5B060

AI Packaging Design Festival - May Lin and Her Friends Live Room

13:30-17:00 W5B080

Establishment Conference of the Pulp Molded Packaging Professional Committee of the China Packaging Federation

Green Packaging Application and Sustainable Development Forum

13:30-17:00 W5E045

European American Chamber of Commerce and Industry Business Matchmaking Meeting

14:00-15:00 W5E001

FMCG Application Workshop – Pulp Bottle and Container Session

14:30-16:30 W5B060

AI Packaging Design Festival - May Lin and Her Friends Live Room

2023.12.14(Thur)

09:30-12:00 W5B080

The 8th Green Development Forum for Pulp Moulding

10:30-11:30 W5E001

FMCG Application Workshop – Daily life Goods Session

10:30-12:30 W5B060

AI Packaging Design Festival - May Lin and Her Friends Live Room

2023.12.15(Fri)

10:30-11:30 W5E001

FMCG Application Workshop – 3C Electronics Session

13:30-16:30 W5B080

The 8th Green Development Forum for Pulp Moulding

13:30-16:30 W5E045

Export Traders Sourcing Matchmaking Meeting

14:00-15:00 W5E001

FMCG Application Workshop – Beauty FMCG Session

14:30-16:30 W5B060

AI Packaging Design Festival - May Lin and Her Friends Live Room

10:30-12:30 W5B060

AI Packaging Design Festival - May Lin and Her Friends Live Room

W5F001
Q&A

Plant fiber molding science popularization corridor

Let Novice Novices Complete The 0-1
Industry Knowledge Transformation @ IPFM

The 8th Green Development Summit of Molded Fiber

🕒 2023.12.14 📍 Shanghai New International Expo Centre

Highlights

China Europe Consistency Standards
[Detailed Rules for Environmental Footprint Assessment of Pulp Molded Products]

Dry Fiber Molding Process and Market Application
Ten New Trends and Innovation Directions in the Molded Fiber Industry

China Molded Fiber Bottle Alliance Initiative

The 2nd IPFM WOW Selection of Best Products

Forum Topic

Innovation for
Efficiency & Lower Cost
Better Alternative for
Big market

Morning 9:30-12:00

9:40-10:00
Initiate China Europe Consistency Standards
[Detailed Rules for Environmental Footprint Assessment of Pulp Molded Products]
Mr. Ben Dong
Secretary General of the Pulp Moulding Branch of the All China Paper Industry Association Founder of Packaging Blue

10:00-10:20
Low Energy Consumption Made by Hanson
Pulp Molding - Let Data speaking for themselves
Li Zhonghua, General Manager
Hanson Pulp Molding Technology Co., Ltd

10:20-10:40
Six Difficulties and Solutions of
Molded Fiber Applications
Liu Wu, General Manager
Alterpacks

10:40-11:00
Ten New Trends and Innovation Directions in the
Molded Fiber Industry
Professor Wang Jun
Jiangnan University

11:00-11:20
Innovative and Sustainable Paper Packaging Solutions
- Henkel Epix Technology Introduction
Xia Letian, Sales Engineer
Henkel (China) Investment Co., Ltd

11:20-11:40
The Outstanding Effectiveness of Energy-saving
Vacuum Pumps - Oil Free Screw Vacuum Pump
Chen Yonglan, Sales Director
Dongguan Sanmsen Energy Equipment Co., Ltd

11:40-12:00
Green Innovative Design That Inherits Chinese Wisdom
Professor Chen Yongjun
Shenzhen University of Technology

Afternoon 13:30-16:30

13:40-14:00
Award Ceremony for IPFM WOW Selection of
Best Products

14:00-14:20
Positioning and Development Ideas of Moled Fiber
Products Manufacturer
Ye Jinqiang, General Manager
Qingyuan Keding Electromechanical Equipment Co., Ltd

14:20-14:40
Visual Inspection + Automatic Packaging - Soper Helps
Reduce Costs and Increase Efficiency
Zhu Xilin, Deputy General Manager
Sichuan Soper Science And Technology Co., Ltd.

14:40-15:00
Application of Fluorine-free Environmental Friendly
Barrier Coatings in Pulp Molded Products
Zheng Haiting, General Manager of the Project
Department
Guangzhou Human Chemicals Co., Ltd.

15:00-15:20
Energy-saving Efficiency Analysis and Spibmm
Customized Solutions for the Pulp Molding Industry
Li Guanghua, Deputy General Manager
Spibmm

15:20-15:40
Sustainable Development of Packaging and
Environment Under the Background of Dual Carbon
Ms. Sun Hao, Vice Professor

W5F042	Anhui He Brothers Environmental Protection Technology Co., Ltd	Anhui Huajie Xinsen New Material Technology Co., Ltd.	06 Plant Fiber Molding Product[6.2Food Container[6.3Disposable Bowl[6.4Fast Food Tray[6.5Paper Dish[6.8Prepared Food and Prepared Dish[07 Food and beverage takeaway packaging[7.20Degradable packaging bag[08 Packaging material[8.1 Food wrapping paper	Main business: degradable lunch boxes, multi grid lunch boxes, soup bowls, noodle bowls, and so on.	Anhui Huajie Xinsen located in Anqing City, Anhui Province, with 418 employees and a workshop area of 45,000 square meters, We have 8 production lines of S SS SMS nonwoven fabric, 50 production lines of All automatic nonwoven bags machines, 12 D-Cut bags machines, 18 wheat flour production lines and all of the whole industry chain, which provide the daily capacity with over 5 millions pieces. Huajie Group, with its strong logistics and distribution, supply chain management and professional production capacity, provides customers with products such as non-woven fabrics, non-woven environmental protection bags, vest bags, thermal insulation bags, decorative plastic films and various environmental protection packages, which are widely used in the fields of food and beverage take-out, drinks, supermarkets and educational institutions. Products are widely sold all over China, and exported to more than a dozen countries such as the United States, Europe, Japan and Australia, etc.
W5E018			07 Food and beverage takeaway packaging[7.18Non-woven bag[08 Packaging material[8.12Coated non-woven fabric[9 Fresh cold chain packaging[9.2 Insulated bag		
W5D008	Anhui Minghuicheng Packing Technology co., Ltd.	Anhui Xihua New Materials Technology Co., Ltd	07 Food and beverage takeaway packaging[7.18Non-woven bag		Anhui Minghuicheng Packing Technology co., Ltd. specializes in the production of non-woven bags, takeaway aluminum foil insulation bags, non-woven three-dimensional bags, coated environmental protection bags, one-time forming handbags, and constantly updated equipment. The company has non-woven raw material production line, new high-speed color printing machine, film coating machine, one-time forming three-dimensional bag machine, which can meet various specifications, with a daily output of 1300000 pieces; from non-woven raw materials, equipment Planning, plate making, printing, laminating, bag making, finished products, to achieve a real one-stop service in the end, all processes are completed by our own workshop, reduce waste, save costs, has been our brand upgrade, main service.
W5G035			07 Food and beverage takeaway packaging[7.9 Plastic cup		We mainly produce pet cups, coffee packaging, beverage packaging, and tea packaging. It is a well-known packaging manufacturer.
W5D001	ANQING LUSH PAPER INDUSTRY CO.,LTD	Beijing Peitian Technology Co., Ltd	06 Plant Fiber Molding Product[6.1Paper Cup[6.2Food and beverage takeaway packaging[7.3 Paper cup		Biodegradable paper cups, recycle paper cups, customized embossed paper cups, foam cups, sleeves, double wall paper cups, take away boxes
W5A001			06 Plant Fiber Molding Product[6.1Paper Cup[6.2Food Container[6.3Disposable Bowl[6.4Fast Food Tray[6.5Paper Dish[6.7Disposable Self-Heating Food Container[6.10Fresh Fruit Tray[6.12Fresh Food Tray[6.16Paper Check for Silkworm[6.21Artware Collet		Anhui Peitian Robotics Group Co., LTD., devoted to the intelligent manufacturing and intelligent equipment, is a provider of domestic industrial robots and automation integration solutions. It has established R&D centers in Beijing, Shenzhen, and Anhui. The business of the company includes production, sales, maintenance services, technical support and training of four-axis and six-axis industrial robot products. It also provides robot system solutions, robot application turnkey solutions and complete sets of flexible automation solutions for manufacturing equipment and systems. At present, the company has a total of 33 robot types, with the wrist load ranging from 3 kg to 280 kg.
W5E043	BeSure Technology Co., Ltd.	Changzhou Jiyao Packaging Co., Ltd	03 Manufacturing & Production Equipment/Line[06 Plant Fiber Molding Product[6.1Paper Cup[6.2Food Container[6.3Disposable Bowl[6.4Fast Food Tray[6.5Paper Dish[6.10Fresh Fruit Tray[6.11Egg Tray[6.12Fresh Food Tray[6.14Paper Tray for Raising Rice Seedlings[6.17Pad for Household Appliances[6.18Pad for Digital and Electronic Products[6.19Shock Insulator for Fragile Products[6.21Artware Collect[6.22Cultural and Creative Product[6.25Shoes Holder[6.31Bed Pan		BeSure is an important supplier of high-end pulp molding equipment, molds, and molded pulp tableware products, providing one-stop solutions for pulp molding projects to our customers.
W5H070			06 Plant Fiber Molding Product[6.34Others		The company mainly undertakes the printing of exquisite album samples, brochures, paper cards, clothing elevators, packaging color boxes, hand bags and other printing products. We all Jiyao printing people will be in line with the business philosophy of "quality-oriented, green environmental protection, reasonable price, honest management, customer first", and use exquisite printing technology to serve new and old customers.
W5B040	CHONGQING REUIJHU PLANT FIBER PRODUCTS CO.,LTD		06 Plant Fiber Molding Product[6.2Food Container		Chongqing Ruizhu Plant Fiber Products Co., Ltd. is a national high-tech enterprise integrating the research and development, production and sales of hybrid bamboo seedling cultivation, bamboo fiber processing, environmental protection container equipment and technology, environmental protection tableware, medical consumables, industrial packaging containers and seedling cups, and leisure agriculture. Bamboo fiber tableware produced by the company is "organic, healthy, ecological and environmental protection". Chemical additives such as reinforcing agents are not added in the production. It can be directly used in microwave ovens, ovens, refrigerators, etc., without toxic precipitation. It is resistant to high temperature and can be frozen at minus 40 degrees without deformation.

Is a professional design, research and development, manufacturing, sales as one of the comprehensive pulp molding company, the company from the strengthening of technology research and development, since its establishment has been committed to the research of paper plastic tray, the establishment of wet press paper tray production line, to create a set of mold, product research and production as one of the comprehensive enterprise. Main products: mobile phone holder, hanger, shoe holder, egg holder, tea box, disposable tableware and so on. Application industry: Electronics, clothing, food, daily necessities, cosmetics and so on.
W5G050	Dongguan Sanmsen Energy Equipment Co., Ltd	03 Manufacturing & Production Equipment/Line[3.8Vacuum Pump	Sanmsen is a professional company focusing on vacuum energy-saving system, focusing on the research and development of energy-saving vacuum equipment; The founder of Mitsumori has been engaged in the machinery industry for more than 20 years. In the process, he found that the water ring equipment consumed electricity and water. He began to develop the energy-saving vacuum pump. In 2013, he developed the first energy-saving vacuum pump, which was put into use in the factory for 3 years, with outstanding energy-saving effect and stable performance; It was officially marketed in 2017. In 2018, the company was officially established, mainly responsible for production and research and development. In order to better serve customers, it changed its name to Dongguan Sanmsen Energy Equipment Co., Ltd. in 2019.
W5E010	DONGGUANG K.B.D PULP MOULD PACKAGE PRODUCTS CO., LTD	06 Plant Fiber Molding Product[6.15Flower and Seedling Supports[6.18Pad for Digital and Electronic Products[6.19Shock Insulator for Fragile Products[6.20Heavy Packaging Tray[6.21Artware Collect[6.22Cultural and Creative Product[6.23Children's Toys[6.24Drama Props[6.25Shoes Holder[6.26Embossed Ceiling[6.27Separating Wall[6.28Background Wall[6.29Disposable Medical Tray[6.31Bed Pan[6.32Body Mat[6.33Pallet[08 Packaging material[8.1 Food wrapping paper	KBD paper Plastic, a professional paper holder manufacturing factory. Domestic Dongguan, Foshan, Suzhou, Nantong, Xi'an and overseas Philippines, Japan kbd more point intimate, personal service. From product design, exterior box rendering to 3D proofing, mold design - production - trial - mass production. Materials from recycled corrugated paper, newsprint, wood pulp - bamboo pulp - sugar cane pulp, process dry pressing - wet pressing. Color primary color and dyeing paper holder, equipment general semi-automatic and fully automatic machines. A complete range of products, in the paper and plastic industry carefully cultivated for 30 years, Kunbao Da paper pallet, is your best choice. We are looking forward to cooperating with you sincerely.
W5B026	Elephant Packaging Materials Co., Ltd.	07 Food and beverage takeaway packaging[7.1 carton[7.5 Paper tray[7.10 Plastic bowl[08 Packaging material[8.17Composite packaging material	Elephant Enterprise has developed for more than twenty years. There are three factories in China located in ShenZhen, Suzhou and Kunshan City. Elephant Packaging Material Co., Ltd is a professional manufacturer of Environmental Food Containers including plastic cup, lunch box, soup cup, coffee cup with lid, food tray, fruit container, PP, PS , APET etc.
W5D026	Eurasia Light Industry Equipment Manufacture Co., Ltd.	03 Manufacturing & Production Equipment/Line[3.6Trimming System	EAMC specializes in researching & developing fully automatic pulp molding production line. The company has a strong development ability, equipment and program technology are original. The company was founded in 1992, located in the economically developed Yangtze River Delta, with a special researching & developing building and testing plant for the fiber molding. We can provide complete plant, technology, and process design of fully automatic plant fiber molding production lines all over the world; and also can be responsible for the installation, debugging, personnel training, and providing regular maintenance service for users. EAMC is a science and technology mechanical company. Our automatic pulp molding machines have the international invention patents in Europe and USA.

W5H050		Foshan Feiyue Electrothermal Technology Co.,LTD	03 Manufacturing & Production Equipment/Line 3.1Molding System 3.2Drying System 3.3Hot-Pressing System 3.4Die Cutting System 3.5Shaping System 3.6Trimming System 3.7Film Laminating System 05 Components 5.3Electrical Element		Foshan Feiyue Electric Heating Technology Co., Ltd. (formerly Guangqianli Electric Heating Appliance Factory in Shunde District, Foshan) was founded in 2004 and is located in Foshan, the hinterland of the Hong Kong Macao Greater Bay Area (Pearl River Delta). Located in Shunde District, Foshan City, known as the "City of Home Appliances", it is a professional production and production company that integrates design, development, production, and sales of electric heating components. We specialize in the production of various industrial specific nano far-infrared energy-saving heating coils, single ended electric heating tubes, copper heating coils, integrated cold and hot devices, ceramic heating coils, air-cooled heating coils, plastic machinery specific electric heating coils, thermocouples, stainless steel wind hoods, etc. Foshan Feiyue Electric Heating Technology has over 20 years of experience in the development and manufacturing of heating products. From project establishment, design and development, production and manufacturing, quality testing to completion and delivery, Feiyue Electric Heating Technology maintains effective communication with customers with high cooperation in every aspect. Feiyue Electric Heating Technology has the ability to provide stable and efficient heating solutions and products for various industries.
W5D046		Foshan Haoyang Packaging Machinery Co., LTD	03 Manufacturing & Production Equipment/Line 3.3Hot-Pressing System 06 Plant Fiber Molding Product 6.4Fast Food Tray 6.5Paper Dish		Pulp molding packaging products, pulp model complete equipment, pulp molding mold design and production, as well as pulp molding technology and services
W5G060		Foshan MeiShi Machinery Co.,Ltd.	03 Manufacturing & Production Equipment/Line 3.1Molding System		It is a high-tech enterprise and a leading enterprise; it is one of the high-end equipment suppliers in the global pulp molding industry. Focus on providing solutions for automated pulp molding production lines and pulp molding products, serving the global pulp products, pulp tableware, pulp trays and other industries. The team has entered the pulp molding industry as early as 2011, and developed fully automatic production equipment for customers. It is an elite team with high technical level, high work efficiency, strong development strength and rich experience. In 2011, the company has taken the lead in using advanced technologies such as in-line trimming and stacking, robot application, rotary multi-station structure, rotary suction, servo control, and online detection and rejection. At present, the company's production line has been used by well-known multinational companies in the industry and listed companies for many years, and has obtained a good combination of theory and actual production. The company has three bases: 1. Yunnan factory (design, manufacturing); 2. Foshan factory (marketing, service); 3. Qingyuan (Fogang) factory (testing, sample making, equipment manufacturing). The products include dry pressing equipment for industrial package customers, wet pressing equipment for high-quality industrial packages, and automatic wet pressing production lines with high output. The equipment is characterized by high speed, high precision, low energy consumpti

Since 1992, GeoTegrity has focused exclusively on manufacturing products using renewable raw materials. Our product line now includes: molded fiber tableware, PE Paper Cups, PLA Paper Cups, and PSM Cutlery. With a strong innovation and technology focus, GeoTegrity is a fully integrated manufacturer with in-house design, prototype development and mold production. We offer various printing, barrier and structural technologies that enhance product performance. We operate food packaging and machine manufacturing facilities in Jinjiang, Quanzhou and Xiamen. We have over 20 years experience exporting to diverse markets across six different continents, shipping billions of su
W5F005		Granster Air Fluid (Guangdong) Co., Ltd	03 Manufacturing & Production Equipment/Line 3.8Vacuum Pump		The R & D director of our company has developed a high-efficiency and energy-saving vacuum equipment focusing on "improving production capacity" for the vacuum system dehydration process of "high-end pulp molding industry". Granster's core technology of high-efficiency and energy-saving vacuum pump independently develops a variety of coaxial integrated transmission technology between host and motor, and direct shaft drive. High efficiency permanent magnet motor has no bearing design and low maintenance cost. Reliable quality, energy saving and high efficiency, stable operation, low noise, 100% output of transmission efficiency. Replacing the traditional vacuum pump, the energy-saving rate is more than 35-50%, and the production capacity is increased by more

W5D015	Guangdong Panyu Energy Saving Technology Co., Ltd	03 Manufacturing & Production Equipment/Line 3.8Vacuum Pump 3.9Air Compressor	In 1998, the Group established the Huizhan Positive and Negative Pressure Distribution Center in the Pearl River Delta and carried out long-term strategic cooperation with Yaskawa. In 2018, Guangdong Panyu was established in Dongguan, the manufacturing capital of the world. The core technology originates from Europe, and the core personnel of the group are all industry veterans with more than 30 years of experience, and each of them has experience in large companies in the industry (Atlas, Edward, Sullair, Leybold, Busch). Adhering to the tenet of " quality is the lifeline of the enterprise, innovation is the core of the enterprise, competitiveness" , we adhere to the business philosophy of "people-oriented, continuous innovation, service first, stop at the best", and all employees together strive to serve every user well and work with you to create a better future! Contribute our value to society! In the same year, the group set up a R&D center in Shanghai, China, and 80% of the core members of the team are composed of bachelor's and master's graduates of Hefei University of Technology, one of the only two universities in China that have opened vacuum operations, all of whom have been engaged in the vacuum application industry for more than ten years. After continuous research and testing, we have developed a series of energy-saving vacuum pumps and energy-efficient central vacuum systems for China, oil-free screws and micro-oil-free screws for China and even the global market
